Notes
<p>NPRS and HIPE</p> <p>Delivery data on NPRS is reported by date of delivery. HIPE data is based on date of discharge of the mother. For example a delivery that occurs on 27 December 2011 and that mother is discharged on 1 January 2012 will be recorded as a 2011 delivery on NPRS and as a 2012 delivery on HIPE.</p>
<p>HIPE dataset</p> <p>Hospital In-Patient Enquiry Scheme (HIPE) Data Dictionary available at www.hpo.ie. Diagnoses are classified using International Classification of Diseases 10th revision Australian Modification. (ICD-10-AM) while procedures are classified using Australian Classification of Health Interventions (ACHI), 6th edition.</p> <p>HIPE does not collect data from private hospitals or domiciliary births.</p>
<p>Hospitals included</p> <p>Women with an allocated admission type of <i>Maternity</i> and with a diagnosis of outcome of delivery (ICD-10-AMZ37). In 2012 there were a small number of women who were admitted for reasons other than their obstetric condition, but received obstetric care and in some cases (<=5 cases) delivered during this episode. These women are not included here.</p>
<p>1. Delivery case</p> <p>Delivery cases with an ACHI Procedure Block code of [1340] <i>caesarean section</i></p>
<p>2. Caesarean Section</p>
<p>3. Instrumental</p> <p>Delivery cases with one or a combination of <i>forceps</i> (ACHI Procedure block [1337] - excluding failed forceps), <i>ovocum extraction</i> (ACHI Procedure Block [1338] excluding failed vacuum extraction), and <i>breech with forceps to coming after head</i> (ACHI procedure codes 90470-02, 90470-04). Discharges which had codes present for instrumental and had caesarean section as mode of delivery are excluded.</p>
<p>4. Episiotomy</p> <p>Delivery cases with a diagnosis of 07571 <i>vaginal Delivery following previous caesarean section</i> as a proportion of multiparous deliveries who had a previous caesarean section identified by 257 or 0342.</p>
<p>5. Vaginal Birth after Delivery</p> <p><i>Maternal care due to uterine scar from previous surgery</i></p> <p>Party is the number of previous live births and the number of previous stillbirths. 15 cases had unknown party so have been excluded from this table. Primiparous means party = 0, multiparous means party of 1 or greater.</p>
<p>6. Party</p>
